Management Commentary

"During the third quarter, we continued to profitably grow our business and are on pace for a record 2018," said Bob Ferris, Chairman and Chief Executive Officer of VirTra. "While our topline recognized revenue for the quarter was down, these types of quarterly fluctuations are part of our current business. Still, we achieved another quarter of both net income and adjusted EBITDA profitability.

"Nevertheless, we believe it is critical to bear in mind that our long sales cycle, as well as the timing of large contracts, necessitate evaluation of our results over a longer term. As such, we think attention to our financial performance for the first nine months of the year is appropriate, highlighted by 10% revenue growth to a record \$15.5 million, \$2.1 million in net income and \$3.3 million in adjusted EBITDA. From an operational standpoint, we increased our backlog by \$1.6 million to a total of \$6.8

million. This improvement demonstrates the consistent execution by our expanded sales organization and the growing demand from law enforcement professionals around the world for our products.

"We are optimistic that in addition to this growing demand, the momentum we established in the first half of the year, the operational progress we've made this quarter by launching new products like the V-VICTA training courses and the additions to our backlog will result in another solid year for VirTra and continued growth and profitability over the long-run."

Third Quarter 2018 Financial Results

Total revenue was \$3.5 million compared to \$4.7 million in the third quarter of 2017. The decrease in total revenue was due to lower sales of simulators, accessories, and scenarios.

Gross profit was \$2.1 million (58.8% of total revenue) compared to \$3.1 million (66.4% of total revenue) in the third quarter of 2017. The decrease in gross profit was primarily due to differences in the type and quantity of systems and accessories sold.

Net operating expense was \$2.0 million compared to \$2.4 million in the third quarter of 2017. The decrease in net operating expense was due to reduced accounting, legal, and consultant expenses quarter over quarter.

Income from operations was \$80,000 compared to \$752,000 in the third quarter of 2017.

Net income totaled \$61,000, or \$0.01 per diluted share, compared to \$742,000, or \$0.09 per diluted share, in the third quarter of 2017.

Adjusted EBITDA, a non-GAAP financial measure, totaled \$174,000 compared to \$874,000 in the third quarter of 2017.

As of September 30, 2018, cash and cash equivalents totaled \$7.9 million, an improvement of \$3.0 million from \$4.9 million at the end of the prior quarter.

Financial Results for the Nine Months Ended September 30, 2018

Total revenue was \$15.5 million compared to \$14.1 million in the first nine months of 2017. The increase in total revenue was due to additional sales of simulators, accessories, licensing fees, warranties and other services.

Gross profit was \$10.0 million (64.8% of total revenue) compared to \$9.3 million (65.7% of total revenue) in the first nine months of 2017. The increase in gross profit was primarily due to differences in the type and quantity of systems and accessories sold.

Net operating expense was \$7.2 million compared to \$6.4 million in the first nine months of 2017. The increase in net operating expense was due to increases in general and administrative expenses.

Additionally, the nine months ended September 30, 2018 included an impairment loss on investment in That's Eatertainment Corp., f/k/a Modern Round, LLC, a wholly owned subsidiary of Modern Round Entertainment Corp., a related party, recorded as operating expense. The year-over-year increase in

professional services included non-recurring legal and public company expense directly related to the Company's qualification and Securities and Exchange Commission registration and Nasdaq listing in March 2018.

Income from operations was \$2.9 million compared to \$2.8 million in the first nine months of 2017.

Net income totaled \$2.1 million, or \$0.25 per diluted share, compared to \$2.8 million, or \$0.33 per diluted share, in the comparable period a year ago. The decrease in net income is primarily due to a \$769,000 increase in income tax expense.

Adjusted EBITDA totaled \$3.3 million compared to \$3.3 million in the first nine months of 2017.

About the Presentation of Adjusted EBITDA

Adjusted earnings before interest, income taxes, depreciation and amortization and before other nonoperating costs and income ("Adjusted EBITDA") is a non-GAAP financial measure. Adjusted EBITDA also includes non-cash stock option expense and other than temporary impairment loss on investments. Other companies may calculate Adjusted EBITDA differently. VirTra calculates its Adjusted EBITDA to eliminate the impact of certain items it does not consider to be indicative of its performance and its ongoing operations. Adjusted EBITDA is presented herein because management believes the presentation of Adjusted EBITDA provides useful information to VirTra's investors regarding VirTra's financial condition and results of operations and because Adjusted EBITDA is frequently used by securities analysts, investors and other interested parties in the evaluation of companies in VirTra's industry, several of which present a form of Adjusted EBITDA when reporting their results. Adjusted EBITDA has limitations as an analytical tool and should not be considered in isolation or as a substitute for analysis of VirTra's results as reported under accounting principles generally accepted in the United States of America ("GAAP"). Adjusted EBITDA should not be considered as an alternative for net income, cash flows from operating activities and other consolidated income or cash flows statement data prepared in accordance with GAAP or as a measure of profitability or liquidity. A reconciliation of net income to Adjusted EBITDA is provided in the following table:
