

VNGB-G17/22 NON-GUN BLUE

PRODUCT: VirTra NON-GUN BLUE

DESCRIPTION:

The laser-based Non-Gun Blue replica Glock 17/22 is a training device solution for lethal force options on VirTra simulators. Non-Gun Blue is shot tested at an industry-leading FIVE times the durability than most on the market with over 25,000 shots tested. The weighted durable magazine is drop tested at six feet, making loading and reloading even more reliable during training exercises. With a 7.5-pound pressure trigger pull, ease of use of the Non-Gun Blue replicates a standard Glock 17/22, eliminating trigger jams over extended shot capabilities. Fully functional with use in low light situations, the VirTra Non-Gun Blue is in full compliance with federal firearms agreements and regulations.

SPECIFICATIONS:

1. Replicates shape and weight of real Glock 17/22
2. Ambidextrous usability
3. Shot tested at 25,000 shots
4. Blue color differentiates training weapon from real weapons
5. Latching mechanism for physical fidelity
6. Approx. 7.5-pound pressure trigger pull
7. High-strength ABS and steel body for superior toughness- drop tested at 6 feet
8. Class 1A (<0.850 mw) laser safe under all conditions of normal use
9. One-year from date of purchase service agreement- additional available

FEATURES:

1. Replicating the shape and weight allows for a perfect fit into holster with latching mechanism for true-to-life training experience
2. Industry-leading shot testing durability, FIVE times more than competitors with over 25,000 shots tested
3. Weighted durable magazine has been drop-tested at six feet, maximizing efficiency for proper loading and reloading
4. Blue color mitigates real weapons being brought into the training environment
5. Works as an exercise for dry sight practice
6. Ambidextrous usability for left- and right-handed users, increasing training efficiency
7. The trigger breaks at under 7.5 pounds to simulate the trigger press on a wide range of firearms available to law enforcement
8. The gun drill is SME approved and tested, matching standard Glock measurements and performance
9. The Class 1A (<0.850 mw) laser is fully functional with use in low-light situations, specifically with the low-light features in VirTra simulators
10. Compatible with VirTra Rail Mount Training Flashlight
11. Compliant with federal firearms agreements and regulations
12. Compliant with FFL agreement as non-gun
13. Complete capability with all VirTra suites: V-Author, V-Sims, V-Marksmanship, V-Ballistics

Product #:	VNGB-G17/22	Length:	8.0 in
Color(s):	Blue	Height:	5.5 in
Operate/storage temperature:	14°F to 104°F (-10°C to 40°C)	Operating relative humidity:	85% non-condensing

Frame:	ABS	Trigger, magazine, sights:	Delrin
Battery Cover:	Steel	Weight with magazine installed:	21 Ounces
Batteries:	2 CR123A	Sensor Suite:	IR Proximity Sensor
Trigger weight at Break:	approx 7.5 pounds	Sights:	Adjustable/removable
Trigger Magnet:	Disc, 0.138" Thick, 0.118" Diameter		

NON-GUN BLUE REPLICA GLOCK 17/22
